

# Y-hip belt

Measure the child and choose the correct size

Provides a pull down and/or back to maintain the position of the thighs and pelvis against the seat and backrest. It aims to prevent the child from changing the position of the pelvis and from sliding forward in the seat.

	<b>XS</b>	<b>S</b>	<b>M</b>	<b>L</b>	<b>XL</b>
Hip (H) to hip (H)	170–320 mm	210–350 mm	250–410 mm	320–440 mm	410–520 mm
